Providing a simple, safe and secure healthcare technology platform

Practice Management Bridge®

Practice Management Bridge is a comprehensive practice management software solution for improved office efficiency and enhanced patient experience. This turnkey technology interfaces seamlessly with your current Practice Management Software, allowing you to easily track manage, report and reconcile patient payment information.

- Offers convenient, contactless payments solutions
- Expedites payment processing before, during and after care

- Stores patient data in a reliable, secure backend
- Improves communication between practice and patients

- Interfaces seamlessly into any practice management system
- Replaces outdated processes with digital automation

- Allows for functionality to be leveraged across locations
- Implements quickly with easy, remote installation

Simplifying the payment process before, during and after the point of care, Practice Management Bridge helps practices realize more revenue and improve their patient experience.

CSDA Member?

Activate Practice Management Bridge, process payments for two months and **Rectangle Health will cover your CSDA dues for the year!** (Up to \$600)
